CLUB RECEIVES PUBLIC SERVICE AWARD!!!

At the October meeting, an award was presented to the club for meritorious public service during the June 6th county-wide hurricane exercise. The club is honored to recieve this award, which was given by the Brevard county civil defence director Mark McMichael. We hope to participate in several such public service activities for many years to come.

NET TIME CHANGES TO 8:00 PM THURSDAY

Wayne, KB4YLY has volunteered to run the net on Thursday at 8:00 PM. We thank Wayne and several other people who have volunteered to be back-ups. We are Looking forward to a great net.

DX QTH LOCATER BLUE-BOOK STILL AVAILABLE!

Jim Creevay, W4UYZ has published a guide to dx qth's which help locate allot those odd calls. The guide includes zones, locators, IRC requirements any many other useful items. Contact Jim at 632-6809

VOLUNTEER FOUND TO WRITE NEWSLETTER!

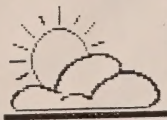
Jeremy Isikoff, KB4PRN has volunteered to produce the newsletter for the club. If you have any comments, call 268-2370.

Nomination Committee Appointed

At the October meeting, a small committee was formed in order to provide some nominations for the elections. The members include: Bud K4CWG, Lloyd KA4LTK, Dave N4KHU, Fred K4ZS.

New Controller Board Functional!

Thanks to Ron, we now have a new repeater controller board. Though it is at a functional stage, the autopatch has not been written into the program yet. We thank Ron and everybody who has done work on the repeater.



Propagation Corner

Solar activity is expected to be very low at the beginning of november but is expected to increase to low levels during the middle part of the month. A smoothed monthly sunspot number of 29 is expected for the month of november. A 30 is expexcted for december.

Any commentss, suggestions, editorials, or stories may be submitted to Jeremy Isikoff 268-2370.
